On Digital Notice Board, according to the programme above: [Sportity](#), www.chronomoto.hu, www.hungarianbaja.com

12.5 OFFICIAL START:

According to the programme above.

13. RUNNING OF THE EVENT

13.2 TIME CARD PROVIDING/EXCHANGES

Time cards will be issued before the Start of each Leg, which must be submitted to the marshalls at the Finish of each Leg. The time card must be filled up by the competitor as instructed by the marshalls.

Time card exchanging: at regrouping.

13.3 LIMITED TIME DELAY

Maximum delay between two TC is 30 minutes per Leg. Delay exceeding this limit will result in disqualification.

13.4 FIXED PENALTY

Competitors who got fixed penalties on the day of the race, can revert to the race- at regrouping areas and parc –fermé at the end of the day, until the first vehicle's planned time, in compliance with the other rules described in the TROB Regulations. The Timecard and Time schedule contains the maximal times at the selective stages.

13.5 EARLY CHECK IN AT THE END OF LEG:

Early-check in is allowed at TC2C and TC4A

13.6 PARC FERMÉ:

Before the Start and between Legs, all vehicles must be placed to the Parc Fermé (for the night).

LOCATION: FŐTÉR, Szabadság Tér

13.7 FAULT START:

Vehicles, that cannot take the Start- in accordance with the TROB General Prescriptions point 41.1 can be pushed out from the timecontrol zone.

13.8 AVAILABILITY OF PARTICIPANTS

Participants who park their vehicles in the Parc Fermé upon passing the finish line, must remain available by phone (mobile) until the final classification have been posted.

13.9 ELECTRONIC START PROCEDURE AT THE START OF A SELECTIVE SECTION

The start of the selective section is happening based on an electric clock and lamp, connected to a false start alert system.

When the m/q arrives at the start line, the front of the m/q should be positioned behind a stick placed by the marshal to define the exact start position. One minute before the start time, but not before the car has stopped in its exact position, the marshal shall remove the stick and the competitor shall refer to the automatic countdown clock. Any subsequent change of the m/q's position until its start time is not permitted and will be reported to the Jury.

13.10 RECOGNASSANCE

Recoinnassance of the entire Hungarian Baja route is forbidden.

Appendix 3_ GPS Installation KIT

KIT COMPONENTS

80 €

1. Iridium Antenna
2. Power Cord
3. RF Cord
4. RF Antenna
5. Base/Mount
6. GPS Antenna
7. Adhesive
8. Straps
9. User Manual

IMPORTANT

For the functional tests and verification, all vehicles must have gone through the installation of the mount, power cord, and antennas.

1. POWER CORD

- Connect the red wire to the positive end of the battery 12V(+), and the grey wire to the negative end (GRD). The power cord must be connected directly to the battery (without interruptions and without contact in the power supply).
- A 3A fuse (not included) should be connected to the red wire.
- Take the cord to the location in which the STELLA III EVO is to be installed. All other wires must be insulated, they cannot touch.

2. BASE/MOUNT

- Motorcycles and ATV: The mount can be attached to the handle bar or to a metal plaque close to the navigation system.
- Cars and UTV: The mount can be attached to the panel, or to the roll cage bars. STELLA III EVO buttons must be visible and accessible to the participant (pilot/navigator) even when they are sitting and with the seatbelts buckled.

IMPORTANT

Leave the cords (antenna and battery) in place with at least 10 cm to spare for easy handling.

At least 5 cm of space behind the mount (bottom right corner) to allow space for power cord/connections.

3. GPS ANTENNA

The GPS antenna must be installed horizontally and without obstructions toward the sky. In cars and UTV, It can be mounted on the roof, the hood, or the dashboard. In motorcycles and ATV, attach to the mudguard. For additional firmness, it is recommended to cover it with adhesive tape (non metallic when mounting it to a metallic surface) and pull-up (when attached to soft or plastic parts).

4. ANTENNA IRIDIUM

The Iridium antenna must be installed horizontally and without obstructions toward the sky. In cars and UTV, It can be mounted on the roof, the hood, or the dashboard. In motorcycles and ATV, attach to the mudguard. For additional firmness, it is recommended to cover it with adhesive tape (non metallic when mounting it to a metallic surface) and pull-up (when attached to soft or plastic parts).

5. RF ANTENNA

The radio-frequency antenna must be installed vertically to the roll cage bars (cars and UTV) and the forks (motorcycles and ATV). It is mandatory to use separators (included in the kit) to avoid contact with metallic parts and the carbon fibre that surrounds it.

Once the antennas are mounted, take the SMA connection cords to the base/mount where the STELLA III EVO will be installed.

Appendix 5_ ITEMS AT THE ORGANISERS' DISCRETION

After the Prize Giving Ceremony, we are delighted to announce that a jubilee party will be held in celebration of the XX-th Hungarian Baja, and we warmly invite everyone to join us. We kindly recommend making accommodation arrangements accordingly.

We wish everyone a safe and accident-free competition!
